

REPUBLIC OF KENYA

COUNTY GOVERNMENT OF NYAMIRA

**SECOND SUPPLEMENTARY
PROGRAMME BASED BUDGET**

2017/2018

COUNTY VISION AND MISSION

VISION

Improved socio-economic well-being through maximum utilization of the available resources.

MISSION

To foster the county's economic growth through intensive and efficient utilization of locally available resources thus improving the living standards of the people.

FOREWORD

This is the sixth supplementary budget estimate prepared by the County Government of Nyamira. However, it is the fourth under Programme Based Budgeting (PBB) in line with the provisions of Section 12(1) of the Second Schedule of the Public Finance Management Act, 2012.

The 2017/2018 Supplementary Budget Estimates have been generated based on the approved County Fiscal Strategy Paper 2017 which took into consideration the equitable share from the national government, Grants from the national government and other international organization, the county projected own revenue and specified strategic priorities and policy goals. The Budget outlines key priority programmes to be funded in 2017/2018 and provides projected estimates for the Medium Term. To enhance efficiency and coordination the Budget has clearly defined outcomes, priority objectives, expected outputs, and performance indicators for the identified programs.

However, county's performance has been affected by emerging issues including procurement challenges as well as lack of capacity in IFMIS. To this end, the County Government continues to put in place proper mechanisms, while taking advantage of the County strengths, opportunities and key milestones achieved in the last financial year to develop building blocks that are likely to strengthen the possibility of achieving our vision.

The 2017/2018 Second Supplementary Budget Estimates lay the foundation for economic prosperity of the County by setting out priority areas and consequently high impact programs and projects indicated in the County Integrated Development Plan (CIDP). Implementations of these programs are therefore expected to accelerate development in the county. The Budget estimates also took into consideration the views of the public and interested persons, or groups, Nyamira County Budget and Economic Forum.

CHAPTER ONE

1.0 INTRODUCTION

1.1 COUNTY BACKGROUND INFORMATION

1.1.1 Position and Size

Nyamira County is one of the forty seven counties in Kenya. The County borders Homabay County to the north, Kisii County to the west, Bomet County to the south east and Kericho County to the east. The County covers an area of 899.4km². It lies between latitude 00 30' and 00 45' south and between longitude 340 45' and 350 00' east.

1.1.2 Physiographic and Natural Conditions

The county's topography is mostly hilly "*Gusii highlands*". The Kiabonyoru, Nyabisimba, Nkoora, Kemasare hills and the Manga ridge are the most predominant features in the county. The two topographic zones in the county lie between 1,250 m and 2,100 m above the sea level. The low zones comprise of swampy, wetlands and valley bottoms while the upper zones are dominated by the hills.

The county is divided into two major agro-ecological zones. The highland (LH1 and LH2) covers 82 per cent of the county while the upper midland zone (UM1, UM2 and UM3) covers the remaining 18 per cent. Annual rainfall ranges between 1200 mm-2100 mm per annum. The long and short rain seasons start from December to June and July to November respectively, with no distinct dry spell separating them.

The maximum day and minimum night temperatures are normally between 28.7°C and 10.1°C respectively, resulting to an average normal temperature of 19.4°C which is favorable for both agricultural and livestock production.

1.1.3 Administrative and Political Units

Administratively, the Nyamira County is divided into 5 sub-counties namely Nyamira, Nyamira North, Borabu, Manga and Masaba North. The county is further divided into 14 divisions with 38 locations and 90 sub locations. Borabu sub-county is the largest with an area of 248.3km²

followed by Nyamira North sub-county with an area of 219.3km² while Manga sub-county is the smallest with an area of 111.3 km².

1.1.4 Political units

Politically, the county has four constituencies, namely, West Mugirango which covers administrative boundary of Nyamira sub-county; Kitutu Masaba which covers administrative boundaries of Manga and Masaba North Sub-counties; North Mugirango which covers the administrative boundary of Nyamira North sub-county except the proposed Kiabonyoru division in Nyamira North sub-county which forms part of Borabu constituency and covers the entire administrative boundary of Borabu sub-county. The County also has twenty County Assembly Wards.

1.1.5 Demographic Features

The total population for Nyamira County has been projected to 679,935 in 2017 of which 326,240 are males while 353,694 are females with reference to the 2009 Population and Housing Census. The population is expected to increase to 705,316 in 2018. The inter census population growth rate is estimated at 1.83 percent which is below the national growth rate of 3 percent.

1.2 PROGRAMME BASED BUDGET AT AGLANCE

1.2.1 Overview

Public Finance is key to successful implementation of all government policies. In the public sector budget preparation, Programme Based Budget (PBB) approach has been found to be the most appropriate in making public financial management results oriented.

A budget “Programme” is a main division within a department’s budget that funds a clearly defined set of objectives based on the services or functions within the department’s legislative and other mandates. It also constitutes a management unit established within a department responsible for the delivery of that defined set of services and functions. A “sub-programme” is a constituent part of a programme, that defines the services or activities which contribute to the achievement of the objective(s) of the programme of which it forms a part. Some of the defined

services or activities could include key projects identified by a department. A program structure is underpinned by program template setting out programs and program objectives, performance indicators, annual and forward year output and outcome targets, consolidation of capital and recurrent expenditures.

The aim of using the Programme based approach in budgeting includes;

- (i.) To enhance programme outcomes through the exercise of an accountability framework;
- (ii.) To make the use of budget resources more transparent by use of performance information to set targets and priorities by departments;
- (iii.) To ensure allocation of funds in the budget is linked to achievement of the county's development aspirations in an effective and efficient manner;
- (iv.) It gives decision makers a clearer understanding of the relationship among policies, programs, resources and results;
- (v.) Linking resources allocation to proposed development interventions as captured in the county's County Integrated Development Plan (CIDP) and actual results;

Performance information is a critical factor in successful programme budgeting and requires continuous refinement. It is also fundamental to realizing government's strategic and policy priorities and it encourages accountability within government institutions.

The County fiscal policy strategy recognizes that available resources are scarce and hence the need to focus on the County government's priority programs. It will therefore focus on maintaining a strong revenue effort, containing growth of total expenditures while ensuring a shift in the composition of expenditure from recurrent to capital expenditures and ensuring a significant shift in resource allocation towards CIDP priority (social and economic) sectors.

The FY 2017/18 budget is sector based which majorly borrows from the National Government classification of functions. The County Treasury Circular 5/2016 outlined the guidelines to be observed in the preparation of County budget under the Medium Term Expenditure Framework. Its contents have been informed by the County Fiscal Strategy Paper (CFSP) and County

Integrated Development Plan (CIDP) as approved by the County Assembly.

1.2.2 Legal Framework and Guiding Principles for County Programme Based Budget

The 2017/18 2nd Supplementary Budget has been prepared in compliance with the provision of Chapter twelve of the Constitution and Section 135 of the PFM Act 2012. The fiscal responsibility principles contained in the PFM Act, 2012, Section 15 have been adhered to in preparing the supplementary budget so as to ensure prudence and transparency in the management of public resources.

The estimates were also informed by the 2017 County Fiscal Strategy Paper (CFSP) and County Integrated Development Plan (CIDP) as approved by the County Assembly. The Annual Development Plan (ADP) also guided the preparation process. In compliance with PFM Act, 2012 Section 125(2) which provides for public participation in the county budget process, this Programme Based Budget contains inputs from members of the public, who were involved at the sub county level budget consultation forums held between 27th to 29th December 2016.

1.2.3 Risk to Revenue Collection and Budget Implementation

- (i.) *Volatility of the political environment and changing political priorities:* Operating in a political system may pose implementation challenges as political scenarios changes and its unpredictability becomes a major risk in the operationalization of the policies and programs planned in the medium term.
- (ii.) *Casus fortuitous:* Natural calamities also pose the greatest risk to the county's development agenda. The most common disasters include disease outbreaks for both livestock and human, conflicts, landslide, gully erosion, lightning, flooding and drought. These calamities can delay programs or lead to collapse of projects. Without proper contingency plans, funds meant for other programs can be redirected to mitigate against the effects of disasters.
- (iii.) *Cash flow Fluctuations and Unpredictability:* Internal revenue flow is unpredictable due to fluctuations on a month to month basis. Same applies to equitable share from the national government. The release of the equitable share from the national government has not been

regular and budgeting as well as planning for the funds becomes cumbersome thus leading to delays in commencement and completion of projects.

(iv.) *Inflation Rates:* High Inflation rate might destabilize the budgets thus inflating the cost of the projects. This is more pronounced for projects and programmes that rolls over for more than one financial year.

(v) *Delay in the passage of division of revenue bill.*

1.3 THE SUPPLEMENTARY BUDGET

1.3.1 The basis for 2017/2018 Second Supplementary Budget

The PFM Act 2012 section 135(1) and PFM regulations section 39(1), stipulates that the basis for supplementary budget preparation should be either insufficiency of amounts provided or unforeseen and unavoidable circumstances for which no amounts were allocated.

The following forms the basis for the revised budget:-

- A Collective Bargaining Agreement (CBA) reached between the government and union of doctors and nurses, the County Government was forced to contract nurses who served the department of Health Services during a protracted countrywide strike by nurses. This necessitated reallocation of funds to cater for a deficit in available funds for compensation of employees in the County.

1.3.2 Guidelines for supplementary budget

- No funds should be transferred from capital/ development to recurrent No funds should be moved from wages/salaries to non-wages but only to development matters when there are savings on salaries.
- Reallocation should not contravene the fiscal responsibility principles such as wage bill ratio of 35% and development ratio to recurrent of 30% to 70%.
- The departments should budget within the recommended ceilings and no additional funding will be available due to shortfall in revenue.

1.3.3 Memorandum on the deviations of the County Fiscal Strategy Paper 2017 from the current supplementary budget

The County government is in recognition that the revised budget may have deviated from the financial objectives as set out in the County Fiscal Strategy Paper 2017. A memorandum will therefore be submitted as portrayed in the table below to effect the changes as per the department.

1.3.3.1 Explanations on the departments that have varied with or more than 10%

In the 2nd revised estimates 2017/2018 FY, some departments realized more than 10% including the Finance and Planning, Executive, Health and Public Service Management.

Table 1 above indicates the approved estimates and the revised estimates which were arrived as a result of reallocating funds to or from departments to cater for the deficit. In the 2017/2018 FY printed recurrent estimates amounted to Ksh 3,948,819,781. This figure was retained in the 2nd revised estimates 2017/2018 FY however, departmental ceilings varied based on the reallocations made on Operations & Maintenances (O&M) as well as Personnel Emoluments.

The County compensates its staff on monthly basis a total of Ksh 214,714,528 as indicated in Table 1. However, due to unforeseen increase in wage bill, several Departments realized either a deficit/surplus which amounted to Ksh 164,344,487. To remedy this, each department was expected to reallocate monies from their O&M allocations to offset their salary deficits as well as donate to other departments that had greater salary deficits.

Public Finance Management Act (PFM)-Section 154, 2(c) stipulates that the total of all reallocations made to or from a program or Sub-Vote does not exceed ten percent of the total expenditure approved for that program or Sub-Vote for that year. In table 1 above, several departments received funds totaling to Ksh 114,839,122 so as to offset the salary deficits. Conversely, other departments contributed funds amounting to Ksh 114,839,122.

Some of the Departments that reallocated more than the 10% of their total recurrent ceiling include Executive and Finance & Planning. It is of importance to note that the Department of Finance & Planning had reallocated **Ksh 40,000,000** meant for Housing loans due to shift in priority hence the variance. The County Executive reallocated funds for Membership Fees, Dues and Subscriptions to Professional and Trade Bodies which amounted to Ksh **16,416,280** as result of priority shift.

On the other hand, the Department of Health and Public Service Management realized allocations more than the stipulated 10% due to a greater salary deficit. In health, the Collective Bargaining Agreement (CBA) reached between the government and union of doctors and nurse contributed to this deficit. Then again, Public Service Management has a larger number of workforce whom contributed to the deficit through the annual increment as per the CBA 2017.

Additionally, the County Assembly had internal reallocations as follows;

Code	Department	Printed Estimates (Ksh)	Reallocation from	Amount (Ksh)	Reallocation To	Amount (Ksh)	Revised estimates (Ksh)
R5261000000	County Assembly	485,084, 188	General Administration	12,580,000	Oversight	14,200,000	485,084,188
			Legislation & Representation	1,620,000			
			Infrastructural development (Purchase of Generator)	6,000,000	Infrastructural development (Construction of office staff and Speaker's Official Residence)	6,000,000	
Total				20,200,000		20,200,000	

- Construction of office for staff had printed estimates amounting to Ksh 47,429,650 and Construction of Speaker's official residence was Ksh 10,274,000 making a total of Ksh 57,703,650. This amount has been increased to Ksh 63,703,650 from purchase of Generator.

1.3 THE REVISED BUDGET FRAMEWORK FOR 2017/2018 FY

1.3.1 Revised Revenue Framework for 2017/18 FY

The total estimated revenue for the revised FY 2017/18 Budget amounts to Kshs 6,111,939,631 comprising of Kshs. 253,112,676, Kshs. 4,620,600,000 and Ksh.403,922,211 for local revenue, equitable share and conditional allocations respectively. The equitable share will finance 76% of the total budget; Conditional grants will fund 6% of the total budget while the locally mobilized revenue will fund 4% of the total County Annual Budget. Included in the total revenue is the unspent balance carried forward as opening balance from FY 2016/2017 totaling to Ksh 834,304,744 which will fund the County Budget at 14%.

Conditional allocations comprise of Ksh 11,995,032 for DANIDA, Ksh. 28,452,981 for Universal Health Care Project, Ksh 39,582,751 for Kenya Devolution Support Programme, Ksh. 13,175,221 for Compensation for user fee forgone, Ksh 83,704,140 for Development of youth polytechnics, Ksh 177,012,086 for Fuel Levy Maintenance Fund and Ksh.50,000,000 for World Bank Loan for National Agricultural and Rural inclusive growth project. Table 1, 2 and 3 explains in details the County revenue sources.

1.3.2 2nd Revised Expenditure Framework for 2017/18 FY

Expenditure is broadly classified into development and recurrent. Recurrent expenditure is further classified into compensation to employees and operation and maintenance. In this context funds can either be recurrent or development depending on the nature of the intervention in the Programme Based Budget. Recurrent expenditure is estimated at Ksh **3,948,819,781** representing 65% of the total budget. The recurrent expenditure comprises of Ksh 1,387,899,037

and Ksh 2,560,920,744 for Operation and Maintenance and compensation to employees respectively. The total development expenditure amounts to Ksh. 1,888,801,377 translating to 31% of the total budget. From the expenditure classification, wage bill constitutes to 42% of the total County revenue estimate. The County is still on path to ensure that fiscal responsibility principles are realized. Table 4, 5, 6 and 7 shows the expenditure analysis for the revised budget 2017/2018. From the analysis in table 6 and 7, the development expenditure will fully be funded from the equitable share, opening balances and the conditional grants while the appropriation in aid will fully fund the recurrent expenditure. Details of the expenditure work plans, Programme and Sub-programmes expenditure standard costing is attached in the Annex 1.

4.5 CONTEXT FOR BUDGET INTERVENTION

4.5.1 Expenditure trends

The major mandate of the department is to facilitate the management of financial resources, co-ordinate the County development planning, policy formulation and implementation for economic development. During the period under review, the recurrent expenditure for the department was Ksh 440,469,253 against a target of Ksh.524, 808,936 representing an under spending Ksh.

84,339,683 (or 16 percent deviation from the Target budget). Development expenditure incurred amounted to Ksh.6, 695,434 compared to a target of Ksh. 34,872,773, this represented an under-spending of Ksh. 28,177,339 (19 percent deviations from the target development expenditure). The under-performance in overall expenditures is attributed to shortfalls in ordinary revenues, challenges in IFMIS and procurement execution. The cash flow projection from Exchequer transfers has unpredictable and this has partly caused the underperformance as envisaged.

In the current financial year 2017/2018, the departmental total estimate was Kshs. 354,985,246 where Kshs. 13,208,000 was development and Kshs. 341,777,246 recurrent. This has been revised in the current supplementary budget where Ksh 388,605,571 has been allocated for recurrent expenditure while Ksh. 39,087,000 has been allocated for development expenditure to deliver the Programme results as detailed in Part H of the departmental budget.
